Dear Cluis,

I just wanted to take a moment and tell you how much we appreciated being a part of the 2006 G8 Summit. Atlanta Web and all its employees were extremely proud to print this year's program guide as we have done for you in the past.

Just as the 2004 book won an award, we will definitely be entering this year's book in the statewide printing competition and we expect to win big again! This can only happen because of the terrific partnership that we have developed through the years.

As always, our goal is to provide you with the best quality and service possible, and I feel that we have accomplished this again - just take a look at this year's book - it is a wonderful piece.

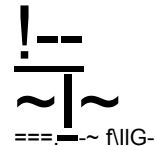

Again, I just wanted to let you know that everyone here at Atlanta Web is extremely proud to be this year's G8 Summit printer and we thank you immensely for allowing us to have this opportunity.

Sincerely,

~~~
